

K-Love radio station is a refreshing radio station that I receive locally. I support this station monetarily so that I can hear something positive and uplifting and newsworthy each day. I am afraid of losing K-Love! I believe that K-love radio station needs to be heard because there needs to be something positive to listen to in all the hardship going on. I need to hear the news from a different way than I hear on the TV. It is one of the only places that I trust to give me the facts and update me on news that I know that I can trust. It would be a tragedy to lose a conservative view of the world. Please do not force K-love off the radio! I have been listening and supporting them for years!

Thank you! Allison Clough
